

4. Sales Discovery Notes (Structured)

Business Challenges

- Hard to maintain strong visibility & discoverability across retailer marketplaces.
- Product descriptions currently require both keyword optimization and conversion-friendly copywriting — few teams have both skillsets.
- Manual, agency-heavy process → expensive, slow, and inconsistent.
- High rate of retailer non-compliance → penalties & rework.
- Online sales influence offline sales → need better search performance.

POC Learnings

- Bounteous built initial POC with GenAI-based keyword enrichment.
- Gains in search ranking; sales uplift inconclusive (limited test size).
- POC validated technical approach; MVP needed for real in-market testing.

MVP Objectives (Confirmed)

1. **Validate search & sales lift** from GenAI-enriched content.
 - KPIs: ↑ search rank, ↑ PDP traffic, ↑ unit sales, ↑ revenue.
2. **Provide marketers an easy-to-use, compliant, low-risk tool.**
 - KPIs: ↓ time-to-create, ↓ non-compliance, ↓ rework.
